PROFESSIONAL SUMMARY

Full Stack Developer with experience in building modern web and mobile applications and AI-powered solutions using React.js, Flutter, Flask, Python, and REST APIs. Skilled in developing scalable applications, integrating AI technologies, and solving real-world problems through clean and efficient code. Experienced in semantic search, OCR, Firebase, and agentic AI workflows, with a strong focus on delivering high-quality, user-centric software in collaborative development environments.

TECHNICAL SKILLS

Frontend: HTML, CSS, React.js, Tailwind CSS, Flutter

Backend: Flask, REST APIs, Node.js, Express.js

Programming Languages: Python, JavaScript

Databases: PostgreSQL, SQLite

AI / Tools: CrewAI, OpenAI APIs, FAISS, OCR, Firebase, Git

Core: Full Stack Development, Mobile App Development, Backend Development, Software Development

PROJECTS

True Hadith — AI-Powered Hadith Verification App | Flutter, Flask, FAISS

- Built an AI-powered Hadith verification app in a team of developers using Flutter, Flask, and FAISS, enabling semantic search across 19,000+ Hadith from 3 major collections (Sahih Bukhari, Sahih Muslim, and Tirmizi).
- Engineered a FAISS vector index over the full 19,000+ record dataset, reducing verification lookup from manual multi-minute searches to near-instant retrieval.
- Implemented OCR and speech-to-text pipelines to extract and process religious text from images and audio, expanding input methods for users.
- Integrated multilingual support and Firebase authentication, improving accessibility for a wider, non-English-speaking user base.

Synapse — Agentic AI Market Research System | CrewAI, OpenAI APIs, React.js

- Developed a multi-agent AI system using CrewAI and OpenAI APIs to automate market research, analysis, and report generation, reducing manual research effort for complex topics.
- Built a real-time dashboard in React.js to display research insights and live updates as agents completed their tasks.
- Designed and integrated end-to-end AI workflows that chained multiple agents to handle multi-step research tasks autonomously.

EDUCATION

Bachelor of Science in Computer Science

Karachi Institute of Economics & Technology | 2022 - 2026

TRAINING & CERTIFICATIONS

Modern Full Stack Web Development

Saylani Mass IT Training (SMIT)
